

CONNECTECH NYLON TERMINALS

- Nylon, feed-through, screw clamp and spring clamp Terminal Blocks for DIN rail and panel mounting.
- Wide range covering multiple connections, grounding, distribution, safety fuse link, disconnect, double/triple levels, PCB and electronic Terminal Blocks.
- Secure grip of screw clamps with special serrations over solid or stranded wires. Rolled screws provide calibrated tightening torque for securing wires in the clamp. Special spring steel clamps ensure a tight, yet gentle "non-fraying" grip over solid or stranded wires.
- Finely crafted current bar ensures "safe bridge" for the rated current.
- Series 'U' Terminals, with unique clamping foot suitable for DIN 35, DIN 35-15 and DIN 32, offer flexibility to permit low stock levels to Distributors, Panel Builders and Users.
- Carry UL and CSA marks for North America and VDE* and CE mark for Europe.

CG NYLON WIRING DUCT WITH COVER

FEATURES: Manufactured from specially compounded high-impact rigid polyvinyl chloride. Will not peel, chip or crack. Resists oil, salt solution, fungus. Non-flammable, non warp, non-brittle. High dielectric strength and withstands temperatures up to 70°C. CSA, UL and CE approved.
